

Case No: 23-20152

Mr. Moon,

When Pfizer sells a "vaccine" then testifies under oath almost two years later it was not tested for immunity to infection of SARS-COV-2, primary vaccine failure, because they were working at "the speed of science", fraud is obvious. Has anyone been arrested for this yet? The Department of Justice is aware.

When a sitting US President signs an executive order tasking the NIH to create group to manipulate the public into demanding new vaccine technology and that he US taxpayer fund it; then Eco-Alliance Health asks DARPA for funding to release a genetically modified Coronavirus into the bat population of China; then the University of North Carolina and Moderna trade an mRNA injection for a coronavirus when a pandemic results from a coronavirus from bats in China; 12 doctors sign a letter in the Lancet saying that if you believe it leaked from a bio-weapons lab you're a "conspiracy theorist", and a year later retract it because 11 of the 12 have financial interest in the Wuhan lab; then the public funds new "vaccines" with "perfection warp speed" (super-fast, speed of science fast); then Dr. Fauci from NIH gives testimony to the Senate that NIH didn't fund "gain of function" research at Wuhan labs because the viruses worked to make infect humans were not originally able to infect humans so bio-weapons treaties were not violated, it is pretty clear that a biological weapon was released to steal US tax dollars. Has anyone been arrested for this? The Department of Justice is aware.

My lawyer wrote a letter stating a conflict of interest in representing me, I sent this to the Court with a response telling him to remove himself. Then he delayed my appeal and showed up to a 4247(d) hearing with none of the evidence I requested on record nor any witnesses I demanded. Is anyone looking into this?

Have you guys figured out yet that your plan to smear my name, and

make me look insane is the very cause behind exposing what you wanted to hide yet? The US Marshalls and Sheriff's were very interested in what was said on December 11<sup>th</sup>.

I'd say "my plan" but that is arrogance. God's plan is coming to fruition. It is simply a matter of time now. Even the fact that it is March 23 and there are no rulings on December 11<sup>th</sup> and my lawyer hasn't been removed bring motives into question. Damned if you do, damned if you don't.

Will you all find your integrity? Such an important question.

A handwritten signature in black ink, appearing to read "Jack Cayman". Below the signature, the letters "CPA" are written in a smaller, stylized font.

P.S. Mr. Conflict of interest, still waiting for what I asked for. Also, I have 3 receipts for certified mail of a motion for special appearance to challenge jurisdiction in a State civil case I have been trying to handle pro se since February 2023, and they didn't schedule a hearing yet. I have also not received anything back from the 6<sup>th</sup> circuit regarding my second appeal. Is that strange? It is strange, right? I'm feeling like when I catch a dog getting onto the garbage and they refuse to make eye contact and pretend you don't exist. Except it is war crimes, not garbage.
